

TESTIMONIALS

Esther Knecht firstly facilitated a workshop for my leadership team in early 2011 to help us to better understand differences between US and European business cultures and ways of getting work done. In so doing, she made us aware of the richness and value of diversity of thinking and approaches. Esther encouraged us to leverage this unique opportunity to our own team's and the corporation's advantage. Secondly, in mid-2011, building upon this good work, I invited Esther to facilitate a much larger workshop (entitled "Leveraging our diversity") involving ca. 80 participants, being the members of the respective leadership teams from our biologics drug product manufacturing sites across Europe and the US. She once again delivered an outstanding job, and this was recognised by the participants in the feedback they provided subsequent to the workshop.

Neil G. Dunstan, Head of Sterile Drug
Product Manufacturing
Roche Pharma

It has been a great pleasure to work with Esther and we can recommend her any time. We know her as a professional expert in designing and facilitating trainings which were offered to line managers on all levels. She demonstrated a remarkable feeling on the needs and ways how to present and train the audience. Esther had a critical eye and at the same time was open to our input to translate it into a successful training. The client feedback was throughout very positive.

Petra Heldmann, HR Business Partner
Credit Suisse

Coaching with Esther turned out to be one of the best decisions I have ever made. Never before have I met anybody who is not only perceptive, sensitive and sympathetic, but also able to challenge you in a gentle and yet firm way, helping you to find the answers you seek. A very rewarding journey indeed!
